

Presenter's Notes: Healthy Youth Survey (2004) Results Presentation

This presentation illustrates selected results from the “Healthy Youth Survey 2004 Survey Results” reports for your school, district, county, or Educational Service District (ESD). *The presentation is intended only to display highlights and should be used in conjunction with your report, which contains much more detailed information.* Please refer to your report for information about the following:

- The number of students who responded to each item.
- The complete wording of each item and the corresponding answer choices.
- The exact value of the margin of error.
- Notes or cautions about some items.

When using this presentation, please note the following:

- The items included in this presentation were selected for their general importance and usefulness. The same items are reported for all schools, districts, counties, and ESDs.
- The colored bars show the percentage of students responding to a given item who gave the indicated response. The “whisker” bars show a 95% confidence interval for that percentage.
- The Student Participation slide shows the number of students in your school, district, county, or ESD who submitted valid surveys. (Percentage of enrolled students is also indicated for district, county, and ESD presentations.) Participation at some grades is shown as “Not reported,” meaning no results are reported at that grade for one of the following reasons:
 - No students in that grade participated in the survey in your school or district.
 - Fewer than 15 students completed valid surveys at that grade in your school, district, county, or ESD. To protect student anonymity, we cannot display these results.
 - Only one school in your ESD, county, or district participated at that grade. For information about students at that grade, refer to the presentation for the participating school.
 - Only 2 schools in your ESD, county, or district participated at that grade and one contributed fewer than 15 valid surveys.
 - Fewer than 40% of the students enrolled in your district, county (or sampled schools within your county), or ESD returned valid surveys. Results based on a small percentage of eligible students are not likely to be representative of the district, county, or ESD as a whole and thus were not reported.

The presentation includes the following items from the report. Note that some slides report items not included on the elementary version of the survey and thus do not display information for Grade 6.

Slide Number	Slide Title	Local Report Item Number	Item On Elementary Version?
1–2	<i>Title slide/Participation summary</i>	—	—
3	Lifetime Cigarette Use	13	Yes
4	Susceptibility to Smoking	38/39	Yes
5	Current Cigarette Smoking	24	Yes
6	Current Smokeless Tobacco Use	25	Yes
7	Aversion to Smoking	231	Yes
8	Perceived Harm from Secondhand Smoke	49	Yes
9	Enforcement of Tobacco-Free Policies	45	No
10	Lifetime Alcohol Use	15	Yes
11	Current Alcohol Use	30	Yes
12	Current Binge Drinking	61	No
13	Lifetime Marijuana Use	16	Yes
14	Current Marijuana/ Hashish Use	31	Yes
15	Current Illegal Drug Use	33	No
16	Substance Use at School	62	No
17	Weapon Carrying	114	No
18	Weapon Carrying At School	115/116	Yes
19	Physical Fighting	117	Yes
20	Gang Membership	118	No
21	Bullying	135	Yes
22	Enjoyment of School	200	Yes
23	Feeling Safe at School	211	Yes
24	Opportunities for Involvement	207	No
25	Depression	125	No
26	Contemplation of Suicide	126	No
27	Seat Belt Use	107	Yes
28	Riding With a Drinking Driver	108	No
29	Excessive Television Viewing	80	No
30	Sufficient Moderate Activity	78	No
31	Sufficient Vigorous Activity	77	Yes
32	Neighborhood Aversion to Marijuana	159	Yes
33	Neighborhood Aversion to Alcohol	160	Yes
34	Neighborhood Aversion to Smoking	161	Yes
35	Perceived Availability of Drugs	Community Risk Factor	Yes
36	Favorable Attitudes Towards Drug Use	Peer-Individual Risk Factor	Yes
37	Perceived Risk of Drug Use	Peer-Individual Risk Factor	Yes
